DETAILED ACTION

Claims 1-52 are pending in this application.

Restriction Requirement

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, drawn to reducing the number and severity of acne lesions, classified in class 514, subclass 859.
- II. Claims 16-29, drawn to ameliorating the inflammation of acne lesions, classified in class 514, subclass 886.
- III. Claims 30-43, drawn to improving skin tone, classified in class 514, subclass 844.
- IV. Claim 44, drawn to treatment of skin disorders, classified in class 514, subclass 828.
- V. Claims 45 and 46, drawn to treatment of stress-related skin diseases, classified in class 514, subclass 863.
- VI. Claims 49 and 50, drawn to reducing the visual appearance of shine on human skin, classified in class 514, subclass 827.
- VII. Claim 51, drawn to reducing sebaceous gland output, classified in class 514, subclass 848.
- VIII. Claim 52, drawn to increasing compliance of anti acne products, classified in class 514, subclass 859.

The inventions are distinct, each from the other because:

Inventions I-VII and VIII are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are unrelated with respect to process of use. Each of the groups contain the same composition however, there are being used for different uses such as reducing the number and severity of acne lesions, reducing the visual appearance of shine on human skin, or reducing sebaceous gland output, etc. These are distinct inventions as further evidence by the different class and subclasses.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Claims 1-52 are under restriction requirement.
